

COMPANY HISTORY

Rossini Management Systems, Inc. is a corporation formed in 1986 to sell computer software and point of sale systems to the retail, commercial and business marketplace. Some of our clients included, AMC Entertainment, Russell Stover Candies, Hallmark Cards and others. Cash registers, point of sale hardware, scanning systems, inventory control, theater ticketing systems and retail consulting were our main areas of interest.

In April of 1994, Rossini Management Systems, Inc. opened its multi media operations. Today these skills are well utilized for our Website design and programming, with staff members having an average of 25 years experience with computer programming, data base management, graphic design, advertising, multi media, website creation, hosting, and more.

Since April of 1994, we have secured major contracts with several major chambers of commerce, cities and county government agencies, economic development organizations, commercial businesses, and retail.

Our emphasis originally focused on the Kansas and Missouri marketplace, but we have expanded, and now sell and support customers on a nationwide basis. Our product lines have grown steadily since our inception, website creation, Internet applications, database applications, content management systems (CMS), CSS websites, Internet marketing, SEO services, Ad-Word placement and maintenance, and three of our own business ONLY Internet servers.

Our emphasis has now shifted to a strong concentration in the area of website creation, hosting, Internet marketing, search engine submit and placement services, and on-line database applications. Our database application can be utilized for E-mail tracking, newsletter sign-up, and specific applications for customers such as tenant tracking, membership lists, leasing space, retail sales, distributor information, and more.

We now offer hosting of websites and applications. We have continued to expand our line of Linux servers to include Windows servers, and we also now offer free spam and virus email filtering to our customers, using SpamAssassin, one of the top spam filters in the industry.

Our staff has experience in programming, project management, web site design, web site maintenance, web submit service, strategic planning, database creation, sales, advertising, art, graphic art, printing, CAD/CAM programming, hardware installation and maintenance, network installation and maintenance, inventory control systems, computer system management, and much more. With our wide range of experience and with a history of assisting companies and organizations with marketing and increasing profits, **rossini.com** is your logical choice.
